TEN CENTS A WEEK

ARMY IS ORDERED TO CRUSH REBELLION

"Strike and Spare Not" Is the
Edict.

OF THE RUSSIAN EMPEROR

Political Discontent Assuming Acute
Phase—Massing of Troops Continues
at Moscow—Whole City Is Under
Semi-Martial Law.

St. Petersburg, July 26.—War to the
knife with revolution and the knife to
the hilt was proclaimed Tuesday by
Premier Stolypin in a telegram ad-
dressed to the governor generals, gov-
ernors and prefects throughout Rus-
sia, and to the viceroy of Caucasus,

PREMIER STOLYPIN.

and are ordered to strike and spare
not in efforts to preserve order and
crush "the enemies of society."

Included in this category, as shown
by the events of the day, are not only
revolutionists and socialists, but also
the educated liberal and landed class-
es represented in the constitutional
democratic party, and the progressive
newspapers, which are not permitted
to lift their voices anywhere through-
out the entire land.

St. Petersburg, July 26.—Count Her-
den Prince Lyoff and M. Stackovitch,
the three members of parliament who
refused to sign the parliamentary ad-
drees dissolving parliament and to
sign July 23, Wednesday issued a sepa-
rate address appealing to the people
to quickly submit to the imperial de-
cess dissolving parliament and to
prepare for the elections of members
to parliament and to prepare for the
election of members to the new parlia-
ment.

The address points out that the em-
peror acted within the constitutional
rights under the fundamental law
and says that the signers of the ad-
dress in offering this advice, act from
the profound conviction that it would
be a crime in the midst of the present
danger to attempt to shake the
power of the sovereign.

After firmly setting forth the views
of the signers of the address regard-
ing the solution of the agrarian and
other questions and their dissent from
the government program which made
co-operation between parliament and
the ministry impossible, the address
says the emperor only exercised his
legal prerogative in submitting the is-
sue again to the people to decide
whether the views of parliament ac-
tually coincided with the sentiment
of the nation. It then appeals to the
people to prove by their calmness to
prove that they are fitted for self
government, at the same time to show
the monarch by representative whom
"they consciously elect, whom they
desire and adjure them not to at-
tempt to use force, which would be
criminal madness, as it surely would
provoke severe measures.

"The government," the address
adds, "is compelled to maintain the
integrity of the state and the safety
of the citizens at any price. Re-
sistance who face not only means
a severe punishment of fruitless effort

ices, but will also bring holy Russia
to a final economic and political ruin."

Revel, Russia, July 26.—A steamer
loaded with Finnish workmen, arrived
here today but the authorities would
not permit them to land, and the ves-
sel departed, the men singing the
"Marseillaise."

Moscow, July 26.—The massing of
troops in this city continues. The
radiating railroad lines are carefully
guarded and the whole city is under
semi-martial law. In addition to the
regular troops guarding Nicholas sta-
tion, the terminus of the line con-
necting Moscow and St. Petersburg,
a machine gun detachment is on duty
there.

Teheran, July 26.—Political discon-
tent here is again assuming an acute
phase. The people are loudly demand-
ing the dismissal of the grand vizier,
the return of the mullahs and a codi-
fication of the laws.

The mullahs who recently left the
great mosque are now assembled at
Kum, a great shiah place of pilgrim-
age.

There are now over 5,000 refugees
under the protection of the British
legation here.

No More Relief Desired.

Washington, July 26.—Through the
state department the American Red
Cross has sent a dispatch to the Ja-
panese government asking that no fur-
ther contributions be made by the
Japanese to the San Francisco relief
fund. This action was taken by the
Red Cross officials because they be-
lieve all the funds necessary for the
relief of the California earthquake
sufferers can be raised in this coun-
try among persons better able to give
than many of the Japanese who con-
tributed to the San Francisco fund.
A total of \$145,000 was received by
the American Red Cross from Japan
for the earthquake sufferers.

Complaints Against Short Workday.

New York, July 26.—It is said at
the war department that there have
been but two complaints during the
past two years of the violations of the
8-hour law by government contractors.
The last of these occurred at Fort
Wingate, N. M., where the house me-
chanics were worked ten hours a day
but the contractor complained that
there was a real emergency for this
as it was necessary to rush the work
and have his materials in hand and
wrought up before all transportation
facilities were absorbed by the large
movements of troops attending the
maneuvers.

Meets Death in a Duel.

Cincinnati, July 26.—After singing
the hymn "Why Will Ye Die," H. C.
Holmes, a merchant of West Union,
Adams county, Ohio, engaged in a pis-
tol duel with Policeman J. L. Rossiter
Wednesday and was killed in front
of the government building. Holmes
is believed to have become suddenly
insane. He fired several times at
the officer before he was shot, and
when Rossiter stooped over him in an
attempt to help the wounded man, he
shot again just before his death, the
powder burning the officer's face.
Holmes was prominent in his part of
the state and had come to the city
to purchase goods.

Fifty Pulajanes Killed.

San Francisco, July 26.—A special
cable dispatch to the Examiner from
Manila says that a detachment of the
Twenty-fourth Infantry (negro troops)
and a squad of constabulary were at-
tacked Tuesday by Pulajanes while
on a trail between Tolia and Dom-
mammi, Leyte, and a desperate battle
took place, resulting in the rout of
the fanatics with a loss of 50 killed
and more than sixty wounded. The
only American casualty was one cor-
geant of the constabulary wounded.

Idle Asks for Aid.

Manila, July 26.—Governor Ide has
requested military aid to punish the
Pulajanes in the province of Leyte.
A battalion of the Eighth Infantry
from Iloilo and a battalion of the
Fourth Infantry have been sent to the
assistance of the constabulary. Gen-
eral Allen may possibly conduct a
campaign in Cebu, but Governor Oza-
ma reports that there are no more out-
law bands there and that the Pulajanes
are completely crushed.

PEONAGE IS CHARGED BY GERMAN LABORERS

Germans Bring Charges Against
Big Lumber Company.

100 GERMANS HELD IN BONDAGE

United States Officers Have Left for
Lockhart, Where Company Is Locat-
ed, To Take Action—Northern Cap-
italists Own the Company.

Pensacola, Fla., July 26.—Peonage in
its worst form is charged against the
officers of the Jackson Lumber com-
pany, at Lockhart, Ala., and United
States deputies, armed with warrants
for their arrest, left here Tuesday for
that place.

If the allegations are true, about
one hundred emigrants, mostly Ger-
mans, are held in the lumber camps
of that company virtually as slaves.

A party of Germans reached here
Tuesday from the camps stating that
they had escaped. They went to the
German vice consul for protection, and
told him a tale of ill treatment and
cruelty that has hardly a parallel in
the south.

They said they were brought south
in February under representations
that they would receive \$1 and \$2
per day, but received only \$1 from
the company for their labor.

They allege that they were com-
pelled to eat after the Americans, and
if nothing was left they got nothing
to eat. No man was allowed to leave
the camp, and when they attempted
it and were caught they were severely
beaten.

In the woods the bosses got armed,
and if the men do not work to suit
them they are stripped and while two
of them hold a man across a log, a
third plies a strap or any instrument
of torture handy.

The Jackson Lumber company is
one of the largest in the south. It
was organized three years ago, and is
composed principally of Michigan and
Wisconsin capitalists.

Identity of Bidder Learned.

New York, July 26.—The identity
of Samuel Byerley, the successful bid-
der for \$5,800,000 worth of the
Panama canal 2 per cent bonds was
learned Tuesday. Byerley turns out
to be a clerk in the accounting depart-
ment of the American Express com-
pany. Ever since the bid for the bonds
was announced, last Saturday, Wall
street has been trying to learn some-
thing about Mr. Byerley, and has been
speculating as to the interests behind
his bid. Byerley was not inclined
to answer any questions Tuesday, af-
ter he had been located. The treas-
urer of the American Express com-
pany said: "This is entirely a person-
al matter with Mr. Byerley, who is
one of our clerks. There is absolutely
nothing in the rumor that he rep-
resents interests in the company."

Crased by Jealousy.

New York, July 26.—Prompted by
jealousy Salvatore Devo, 25 years of
age, fired four shots at Theresa Lodi-
to in West One Hundredth street, on
Wednesday. Miss Lodi escaped un-
hurt but three pedestrians were hit
by the flying bullets, two of them be-
ing seriously wounded. The wound-
ed persons are Abraham Neffski, 21
years of age, shot in the left side; Co-
logero Farace, aged 40, shot in the
right side, and Elizabeth Deegan, 21
years of age, shot in the left leg. The
shooting occurred on the sidewalk at
an hour when the street was crowded
with people. Devo was arrested.

Begged To Be Killed.

Raleigh, N. C., July 26.—By the ex-
position of a supposedly empty 10,000
gallon tank of gasoline at the Works
of the Standard Oil company, in Dar-
ham, N. C., Louis Holloway, 26 years
old, was killed and Tom Lunsford, a
negro, was so badly burned he will
die. Holloway was blown from the
top of the tank, his clothing stripped
from his body and the back burned.
He died in great agony, begging to be
killed. The negro fell inside the burn-
ing tank. Holloway got on top and
with a rope which he caught Lunsford
was again set.

KAPPA SIGMA FRATERNITY.

Seventh Bi-ennial Conclave Conven-
es at Chattanooga.

Chattanooga, Tenn., July 26.—The
seventh biennial conclave of the Kap-
pa Sigma fraternity convened Wed-
nesday morning at Lookout Inn, with
several hundred delegates in atten-
dance from all sections of the United
States.

The opening business session of the
conclave was as follows:

Address of welcome in behalf of
the city and Lookout mountain, Hon.
W. L. Frierson, mayor of Chattanooga,
Tenn.

Address of welcome in behalf of the
state of Tennessee, John R. Neal, of
Roca Springs, Tenn.

Address of welcome in behalf of the
south A. Y. Scott, of Mississippi.

Responses by Alexander Sheriffs,
of San Jose, Cal.; J. D. Hamlin, of
Amarilla, Tex., and others.

Enrollment of members.

Address, "The New South," Hon. H.
Clay Evans.

Address, Hon. James B. Frazier,
United States senator from Tennessee.

The afternoon session's program
was as follows:

At 1:45 p. m., taking of conclave
photograph; at 2:15 p. m., executive
session; making of conclave roll; re-
ports of officers; adjournment.

A grand ball was tendered the lady
friends of the fraternity by the order.

Alleged Robbers Arrested.

Richford, Ill., July 26.—After a chase
of thirty blocks and followed by a
hand-to-hand fight, on Rockford col-
lege grounds at daylight Wednesday,
Policemen Graham and Quinn arrest-
ed two men, who, it is alleged, had
robbed nearly every safe and vault
in the Brown building a six story of-
fice structure. The prisoners, who
were well dressed, gave their names
as Edward Williams and George Ry-
erest, and their residence as Chica-
go. Nearly \$1,000 in bills and a
large number of checks, drafts and
other valuable papers were found on
the prisoners. Among the officers
retrieved were those of the city clerk
and other municipal offices.

Police Merciful to Woman.

Charleston, S. C., July 26.—Mrs. M.
J. John, a young woman, who has
had experience with the police depart-
ments of Atlanta, Augusta, Columbia
and other cities of this section, is
now attracting attention here and her
first meeting of the police here was
marked with a show of money, as has
been her general experience. She
remains here. She was a few nights
ago arrested for drunkenness and
trespass, and the police station com-
mitted her to the Roper hospital for
treatment. She was discharged and
the case against her in the court with-
drawn.

Chemist Charged with Larceny.

New York, July 26.—Walter K. Free-
man, a chemist, who was arrested at
his summer home at Oscawana, N. Y.,
Tuesday, and locked up at police head-
quarters charged by Parke, Davis &
Co., of Detroit, Mich., dealers in drugs
and chemicals, with the larceny of
\$2,500, was found in an unconscious
condition in his cell Wednesday and
was believed to be dying. He had
taken morphine, but the authorities
were unable to ascertain whether he
took the drug with suicidal intent.

Mining Engineers Meet.

London, July 26.—A general meet-
ing of the American Institute of Min-
ing Engineers was held here Wednes-
day under the presidency of Robert
W. Hunt, of Chicago, president of the
American Institute. Many members
of the British Iron and Steel Insti-
tute also attended. In his address
Mr. Hunt surveyed the progress
achieved by metallurgy in America.

Dan H. Drops Dead.

New York, July 26.—A special from
Pittsburg, Pa., says that Dan H. the
famous pacer who had a record
2:01 1/4, dropped dead of heart dis-
ease at the Huron Island track here
Tuesday.

Killed Asleep on Track.

Huntsville, Ala., July 26.—A white
man named Buggsday was killed by a
passenger train on the Southern rail-
road near Madison. The man was
asleep on the track.

BUCKET SHOP BILL PASSES THE HOUSE

Drastic Bill Secured An Over-
whelming Majority.

ANDREW COBB HEARD BY BOTH

Supreme Court Justice Made Address
Showing Large Increase in Num-
ber of Cases Heard by the Supreme
Court of Georgia.

Atlanta, July 26.—Despite all at-
tempts to lessen the drastic features
of the substitute of Mr. Haykin, of
Lincoln, for house bill No. 27, to pro-
hibit the making of contracts and
agreements for the sale of future de-
livery cotton, grain, provisions, stocks
and bonds, etc., upon margins, the bill
was passed by the house just before
adjournment of Tuesday morning's
session by the overwhelming majority
of 132 to 15, carrying only such
amendments as the author of the bill
saw fit to accept, which but served
to make the bill more sweeping in its
provisions.

The principal amendment adopted
was that providing that the payment
of any license should not be defense
to any prosecution for a violation of
the provisions of the act. The full
text of the substitute as amended and
passed.

The afternoon session of the house
was devoted to an address by Justice
Cobb upon the necessity of giving re-
flect to the supreme court through the
establishment of a court of appeals,
and the constitutionality of the resolu-
tion of Mr. Russell, of Muscogee, to
appropriate \$50,000 for a state exhibit
at the Jamestown exposition.

The latter measure was not disposed
of, and remains the unfinished busi-
ness of the house.

It was the first time this session
that the brilliant member from Mus-
cogee, Mr. Russell, has spoken in the
house, and his stirring eloquence and
appeals to the patriotism of Georgians
brought him hearty applause.

To Go to Hawaii.

Manila, July 26.—The Philippine
commission has adopted a resolution
favoring the scheme of the Hawaiian
Planters' association to transport Phi-
lipine laborers and their families to
Hawaii to work on the sugar planta-
tions. Albert F. Judd, representing
the planters, arrived in the Philip-
pines two months ago and after mak-
ing an investigation of the labor con-
ditions, represented to the commission
a statement of the needs of Hawaiian
planters. The commission has au-
thorized vessels to pick up laborers at
various ports, provided that they be
given good treatment, be allowed to
return to the Philippines at the expira-
tion of contracts, and that their trans-
portation be provided. Laborers de-
siring to go to Hawaii are advised to
accept the offer of the planters. Mr.
Judd wants 200 laborers and their
families.

Date Set for Divorce Hearing.

Paris, July 26.—The court has de-
cided that the hearing of the suit of
Countess de Castellane against her
husband, Count Boni, for divorce,
shall be heard Oct. 17, or Oct. 24. The
hearing of the suits of the count's
creditors in which they are seeking
to hold the countess liable for the ob-
ligations incurred by the count is fix-
ed for the same days.

Freight Handlers Strike.

San Francisco, July 26.—Between
400 and 500 freight handlers in the
employ of the Southern Pacific went
on strike Tuesday in Oakland. They
demand an increase in pay from 22 1/2
to 25 cents an hour, such as granted
on this side of the bay a week ago.
Every day adds to the serious nature
of the freight tie-up.

Rampant Casts in Flames.

Milan, Russia, July 26.—Rampant
castle, situated near Tuhum, one of
the finest and most ancient in Rus-
sian, is in flames.

Armed revolutionaries are again in
possession of the gubernatorial com-
plicity. Two columns of troops are ad-
vanced.

COUNTY VALUATIONS ARE ENCOURAGING

Probably the Largest Ever Reported in Alachua County.

INCREASE A HALF MILLION

Over the Year 1905—An Interesting Report by Tax Assessor Colson, Who Feels Gratified—Phosphate and Naval Stores Make Big Increase.

One of the best and most substantial evidences of the industrial development and general prosperity of Alachua county is given in an interesting tabulation of the valuation of property in this county by Tax Assessor W. W. Colson for the years 1905 and 1906.

In every instance in this recapitulation it will be noted that there has been an encouraging and almost astonishing increase for the periods named.

In 1905 the real estate valuation was \$2,808,860; in 1906 it was \$2,585,130, showing a gain of \$276,780. Railroad valuations increased from \$1,456,789 in 1905 to \$1,525,069 in 1906, making a net increase of \$68,280. Telegraph companies' valuation for 1905 was \$17,394, and in 1906, \$28,665, showing a gain of \$6,271. Personal valuations were \$1,016,780 in 1905; in 1906 they were \$1,165,890, which made an increase for the year of \$149,110.

The total valuation for 1905 was \$4,798,703; for 1906, \$5,269,544, showing the net total increase in one year to be \$470,841.

Assessor Colson, in speaking of the report, states that it is probably the largest and most favorable ever given out in the county. It shows the people and the county to be in a prosperous condition, which is naturally very gratifying. The increase, however, in real estate and personal property is attributed largely to the phosphate and naval stores industries, which have been steadily extending, and which are being operated extensively throughout the county at the present time.

THE NEWS FROM WALDO.

Home of Aged Man Burned—Shooting Affair Between Two Negroes.

Waldo, July 26.—Mrs. John Winter and children, Ruby and Park, have gone to Akron, Ohio, to visit relatives. The Ludden and Bates Company have placed a fine new piano in the Waldo House.

Mrs. Doc Johns has been quite ill but is improving. Mrs. Frank Johns, her sister, of White Springs, was here to see her the past week.

Miss Sue Atwater has been very ill but is better. Dr. Willis of Starke attended her. Miss Ella Atwater is expected from Miami.

Mr. Haler, an aged man who has been living alone, was burned out Saturday, losing almost all he had. Neighbors have somewhat reimbursed him for his loss. The origin of the fire is not known. He was away at the time.

In a dispute Will Jones shot George Buddington twice in the thigh. Both are colored.

Roy Kennard of Fernandina made a visit to relatives here for some days and returned.

Mrs. S. P. Entenza and Misses Emma and Bernice are making a visit in South Jacksonville with George G. Smith and family and other relatives, and also in Fernandina with Mr. Carlo and daughter.

Mrs. J. W. Jolly has returned to her home in Leesburg, after a visit here and at Bronson with relatives.

J. R. Wilkerson was presented on Sunday with a handsome rocking chair as a tribute to his fidelity and efficiency as superintendent of the Methodist Sunday school through the past several years. The gift was purchased by contributions from the school and friends.

And Still They Come.

C. O. Holland and family of Daytona have arrived in the city, and will make Gainesville their future home. Mr. Holland is a piano salesman and has accepted a traveling position with A. R. Harper.

It is hoped that Mr. Holland and family will be pleased with their new place of residence.

Steamers in Collision.

Southampton, July 25.—The British steamer Roman, from Antwerp for Montreal, put in here damaged Monday and reported having been in collision with the Swedish steamer Tails, which sank. The Roman rescued the passengers and crew of the Tails and brought them to this port.

THIS BOY STOLE GOODS.

Helped Himself to Supplies Belonging to Supervisor Waits.

Jim Green, a youthful negro who should have been at work instead of loitering around, could not resist the temptation of helping himself to a lot of groceries and other goods belonging to Road Supervisor Waits of the Micanopy district, with the result that he was arrested, arraigned in Justice Smith's court at Micanopy, convicted, and in default of the payment of a fine imposed, was sentenced to serve three months in the "gang."

Marshal C. H. Crisman of Micanopy brought the prisoner to Gainesville and turned him over to the proper authorities. Deputy Sheriff J. H. Granger took him Thursday to Donnellon, where he will take a three-months' course at digging phosphate.

When Green will have served his sentence, it is hoped that he will be content to go to work and leave other people's goods alone.

A Boss Nurseryman.

T. K. Godbey and daughter, Miss Ellen, were in the city from Waldo Thursday. Mr. Godbey is a successful nurseryman, and also makes a specialty of raising sweet potato cuttings for the trade. At the latter he has enjoyed remarkable success, and his tuber cuttings have the reputation of making the finest and most prolific yield of any in the State. The flavor is said also to be exceptionally fine.

Phantom Cops Caused Suicide.

New Orleans, July 26.—Believing that the police were on his trail John Barthe, a gardener, sprang from his bed, grabbed a shotgun, ran out on the gallery of his residence and blew his head almost entirely off. He missed with the first shot, but then placed the gun under his chin and pulled the trigger again. Barthe was 42 years old, and his mind had of late shown signs of weakness.

Slaughter Houses Closed.

Philadelphia, July 25.—At a meeting of the board of health announcement was made that twenty slaughter houses recently condemned as unsanitary had closed permanently. Sixteen other establishments were improved by order of the board, and the owner of one slaughtering house, who refused to obey the mandate to improve his place, was ordered prosecuted.

Killed Man; Wrecked Plant.

Montgomery, Ala., July 25.—At Brantley, Ala., Monday morning the engine of the Bentley Lumber company blew up, killing Watchman James Jones and wrecking the plant.

Bronchitis

You will be ready to follow his advice. The next time you meet your doctor, ask him his opinion of Ayer's Cherry Pectoral in cases of bronchitis. Then when you have a hard cold in the chest, doctors very generally endorse this old, standard, family cough medicine. They know all about it. They prescribe it in just these cases.

HOW WEASELS HUNT.

The Graceful Pose of the Animals When on the Trail.

The lithe grace of the weasel may be observed whenever it is on the trail. At an even speed, with nose to the ground, its reddish brown back seems literally to glide along through the rank herbage by the bank.

It may be the scent of a rat, and the trail may take it in and out of the bank a good many times before it comes up with its victim. It may even have to swim a stream before its persistence is rewarded. It is wonderful how small a hole that long, arched body can glide into and emerge from without the slightest difficulty.

When it has caught and killed its prey its movements are equally graceful as it carries the spoil home to its hole. Crossing a Kentish field I saw a weasel coming along under the hedge-row red toothed from the chase. There was the same sinuous motion of the back, but the little beast's head was held as high as possible and from its mouth hung the limp carcass of a young rat, freshly killed. The weasel held it by the neck and so high, for all the shortness of its legs, that only the end of the rat's tail dragged through the grass.

A family of weasels will often hunt in company, and this is naturally a most interesting sight to witness. The ability of the weasel to enter exceedingly small holes is owing entirely to the structure of its body—its flat head, long neck and short limbs and tail. In a cornfield it can pursue mice with ease along their burrows.—London Mail.

GAME DOGS AND GAME.

A Remarkable Instance of the Influence of Heredity.

The setter ate the mutton chop greedily, but he would have none of the partridge bones.

"A good game dog," said his master, "can't eat game. Its taste is repugnant to him. This is a remarkable instance of the influence of heredity."

"Game dogs have been trained for many generations not to eat the game—the birds and rabbits and what not—which they bring back to their masters in their mouths. They have been trained to consider that the eating of such game would be a disgrace and an unpardonable sin, the same as bank clerks have been trained to consider that the pocketing of a few dollars from the millions they annually handle would be a disgrace and a sin."

"And the result in the game dogs' case has been that this moral abhorrence of game, suggested to them by their masters, has been transmitted in its passage down from one generation to another, into an actual physical abhorrence. In the matter of game, thanks to heredity, game dogs now are never tempted. They can't sin."

"It would be a good thing for policy holders if, in the same way, man's moral disinclination to steal had been changed by heredity to an actual physical aversion of other people's money."

Ancient Tricks.

The arts of juggling were, as has been proved by learned writers, of high antiquity. The Hittite, who lived near Rome, jumped through burning coals; women in early times were accustomed to walk over burning coals in Cappadocia, and the exhibition of balls and cups is often mentioned in the works of the ancients. It was as far back as the third century that one Firmus, or Firmus, who endeavored to make himself emperor in Egypt, suffered a smith to forge iron on an anvil placed on his breast, and rope dancers with balancing poles are mentioned by Petronius and others, while the various feats of horsemanship exhibited in our circuses passed, in the thirteenth century, from Egypt to the Byzantine court and thence over all Europe.

A Sister's Love.

A Boston clerkman whose work takes him among the poor of that town tells a pretty story of sisterly love existing among the humble and unfortunate. One day a pale and ragged girl of about ten years was seen going along the street carrying on her back her crippled brother, nearly as old as she. A stranger stopped her by saying: "She was once carrying herself. He is too heavy for you to carry," he said. The child of ten years looked up at him reproachfully, saying: "He ain't heavy. He is my brother."

IN CONSTANT RAIN GAME WAS PLAYED

Weather Unfavorable, But Teams
Got to Work Anyway.

THE SCORE WAS ONE-SIDED

Same Old Story of a Shut-Out by the Twirlers From West Florida—Oak Halls Couldn't Stand the Rain and Grounds and Suffered Defeat.

It don't take long to tell this story, because it's short, having concluded at the fifth inning—all wet, the visiting Madison team happy, the Oak Halls and their friends not mad, but disappointed.

The game was played Thursday afternoon in a downpour of rain, which at times almost blinded the players and shut the diamond off from view of the grand stand. However, both teams played with a cheerful willingness, in response to the repeated cries of the grand stand to "play ball." It was a mighty poor game of ball, the torrents of rain and slippery ground being great drawbacks. The visitors seemed to be more accustomed to such conditions than the Oak Halls, however, with the result that the score at the fifth inning was thirteen to a big goose-egg, in favor of the West Florida boys.

That's all—but that's enough. The Madison boys are as clever as one wants to meet as a whole. They enjoyed their stay here, and the Oak Halls and citizens generally enjoyed having them.

HABEAS CORPUS CASES.

Cases of Range and Lightning Rod Agent Argued at Starke.

The habeas corpus case in the matter of the State vs. A. G. Reynolds and others, representing the Wrought Iron Range Company, and J. F. Anthony and others, lightning rod agents, were argued before Judge J. T. Willis of the Eighth circuit Thursday.

It will be remembered that the defendants were arraigned before the county court upon a charge of doing business without a license. They were found guilty by jury and fined, after which a writ of habeas corpus was asked for upon the ground that the law under which they were convicted was in conflict with the laws of the United States.

In these cases the prosecution was represented by Attorneys J. M. Rivers and A. V. Long, the latter appearing for the State's attorney. Judge Syd L. Carter appeared for the petitioners. The matter is now under advisement of the court.

Mr. Wood Likes Tampa.

Lem R. Wood, formerly of this city but now manager of a branch of the Standard Fertilizer Company at Tampa, after three or four days spent here, returned to his home Thursday. Mr. Wood is well pleased with his South Florida home.

INTERESTING LETTER WRITTEN BY A NOTABLE WOMAN

Mrs. Sarah Kellogg of Denver, Color
Bearer of the Woman's Relief Corps
Sends Thanks to Mrs. Pinkham.

The following letter was written by Mrs. Kellogg, of 1623 Lincoln Ave., Denver, Col., to Mrs. Pinkham, Lynn, Mass.: Dear Mrs. Pinkham: "For five years I was troubled with a tumor, which kept growing, causing me intense agony and great mental depression. I was unable to attend to my house work, and life became a burden to me. I was confined for days to my bed, lost my appetite, my courage and all hope. I could not bear to think of an operation, and in my distress I tried every remedy which I thought would be of any use to me, and reading of the value of Lydia E. Pinkham's Vegetable Compound to sick women decided to give it a trial. I felt so discouraged that I had little hope of recovery, and when I began to feel better, after the second week, thought it only meant temporary relief; but to my great surprise I found that I kept gaining, while the tumor lessened in size.

"The Compound continued to build up my general health and the tumor seemed to be absorbed, until, in seven months, the tumor was entirely gone and I a well woman. I am so thankful for my recovery that I ask you to publish my letter in newspapers, so other women may know of the wonderful curative powers of Lydia E. Pinkham's Vegetable Compound."

When women are troubled with irregular or painful periods, weakness, displacement or ulceration of the female organs, that bearing-down feeling, inflammation, backache, flatulence, general debility, indigestion or nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female ills.

Mrs. Pinkham invites all sick women to write her for advice. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease has been advising sick women free of charge. She has guided thousands to health. Address, Lynn, Mass.

Remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

NEWS OF CITY AND COUNTY CONDENSED

Potato vines and oak and pine stove wood for sale by J. N. Bone, 'phone 19.

Friends of Mr. and Mrs. Jordon Jones of Rocky Point are sympathizing with them in the death of their six-weeks-old infant, which occurred at their home Tuesday morning. The interment was held in Arredondo cemetery Wednesday, a number of friends of the parents being present.

The residence being erected by Evans Haile, on the corner of North Pleasant and West Orange streets, is rapidly assuming proportions, and will be ready for occupancy, at the present rate of progress, within the next thirty days. It will be a six or seven room, two-story structure, and one of the neatest in that section of the city.

LABORERS ARE WANTED.

White and Colored—Employment For as Many as Will Apply.

The Florida East Coast Railway Company will pay \$1.25 per day and board, or \$1.50 per day straight, for general work on construction. Transportation furnished. Will leave Gainesville every Wednesday and Saturday. For information apply to John Gillette, 117 West Union street, next door to Dr. Ayer.

Lost a Fine Horse.

E. A. O'Neill, the grocer, is sad over the loss of one of his fine horses which has been driven to a delivery team. The animal, whose name was Dick, was a very intelligent one, and could perform many tricks out of harness. Mr. O'Neill purchased the horse from a collection of Sparks' Virginia Shows, when that aggregation was about to disband for the season about two years ago. Dick was a fine animal and his owner was naturally proud of him.

STOLE A BICYCLE.

Small Colored Boy Rented Wheel and Never Returned It.

William Anderson, the bicycle and electrical goods man who is located on West Union street, is pursuing a bicycle at the result of renting.

About 9 o'clock Wednesday morning a colored boy about four or five years of age entered the place and rented a wheel for an hour. He was given a Triumph, and went his way. Several hours have passed, but up to 9 o'clock Thursday night the young culprit had not returned with the wheel.

Vallie Newbern, clerk in Anderson's store, says he knows the boy, and the officers have been put on the trail.

Municipal ownership of ice plants is now advocated in many sections of the country.

The man who succeeds in busting the ice trust should have a gold statue erected to his memory.

A Maine Republican predicts a Democratic majority of 5,000 in his State this fall. Why not make it unanimous?

A person who had been under the water for 23 minutes was recently resuscitated at the New York Life Saving Station after 24 hours work.

If the armor trust is as grateful to the administration as it should be the Republican Congressional Campaign Committee should not suffer for lack of funds.

The Government is spending this year \$20,000,000 more than its total revenue in 1897. This is Roosevelt economy. This is prosperity for the world-power-lance steerers, but not for the taxpayers.

Senator Foraker says he cannot sit still for two years. Why of course not; President Roosevelt can't sit still for two minutes. The rattled condition of the Republican party won't allow any rest for its ardent votaries.

What influenced President Roosevelt to allow Secretary Bonaparte to give the armor plate trust such a big slice of that contract, when the administration has been trying to make us all believe it was fighting the trusts?

It is reported that the City Council has materially increased the valuation placed upon certain real estate in the corporate limits, but as the State law requiring notice of such increase in assessments to be published in a newspaper has not been complied with, it will be optional with the taxpayers as to whether they pay upon the increased valuation.

SUNBEAMS

BY J. MAVIN NICHOLS.

(All rights reserved in Alachua county.)

Written especially for Gainesville Daily Sun.

Truth is no stronger than its incarnation.

Character is a beautiful dream cut into stone from human quarries.

You can't see the heavens through a telescope until first you put out every light.

A nation is not to find its permanence and support in real estate, but in men.

Too many of us forestall visions of higher things by an abnormal self-appreciation.

To listen to some saints pray you would think God is running a commissary department.

Some men's ambitions are no more than will-o'-the-wisp fires thrown up from the bogs of appetite and passion.

It is the last analysis, thought is power. Ponderous machinery! Yes; but at last, applied thought. Think with power.

Nothing is more rational than our tribute to great men. They represent our history—our toils, trials and triumphs.

The secret forces of our civic, moral and intellectual life in this new century grant no possible quarter to the sluggard.

Like immortal ships, the spirits of great men sail the ocean of time. They bear all the treasures of the age that made them.

Can you tell why? From the same life one man sips the elixir that forever cheers; another, from that same life, drinks gall that embitters it forever. Can you tell why?

In order to make the thing around a man mean anything to him, you have got to enrich his mind, his spirit and his nature, and then he turns his money into higher forms.

The Texas of empire—acres of cotton, corn and cattle-kings, is one thing; the Texas of John H. Reagan is another. When the first is forgotten, the last shall be only dawning. Men make a country.

Pleasure, as a secondary desire, is worth of your seeking. But he who makes pleasure the supreme end of life is unworthy of the infinite possibilities with which this wonderful century endows him. That is an intensely narrow life whose extended boundaries cover no more than the passing pleasures of the hour.

If some Hebrew dreamers had not been taken captive into Babylon the very name of that magnificent empire had doubtless passed from the memories of men. Somebody must suffer if a nation be great. Lightning is never so bright as when drawn across the darkest cloud. A nation's history is mighty when seen against the background of her martyrs and her heroes.

We live or die as we perpetuate ourselves in the on-coming generation. A country is no greater than her sons. The tide of civilization ebbs and flows with the rise and fall of new-born hearts. Ancient Tyre was so busy with her commerce of the seas that she raised no son to give eternal setting in poetry, or history, or tomb, or art, or religion to her now dark, unsounded and unlettered life.

Egypt relied upon her corn, Phoenicia upon her purple dyes, Athens upon her splendors, Rome upon her invincible armies; but these have long since passed away, and their ancient glory is but a memory. Palestine had her Syrian skies whose stars kept vigils while humble shepherds kept watch on her sacred hills. She lives in her Christ of the ages. True! A carpenter's son and the child of peasantry. But Palestine lives forever because the son of Mary walked the highways of Jerusalem and along her roads.

While Secretary Shaw is making friends of the mammon of unrighteousness by lending money to the Standard Oil banks, Mr. Fairbanks is playing a straight flush by driving a mowing machine and making a political hay crop. As between the hayseed candidate and the Standard candidate, we should bet on the hay-seeder. But still there is a fly in the Fairbanks ointment, for his mismanagement of his automobile, in which he travels to and from his hay crop, caused an accident to a brother farmer's wagon, and this fact is being widely published.

The ice trust has put up the price of ice "to save the babies." This is a new form of "benevolent assimilation"; but it is very effective. And then it operates at home, and helps the coffin trust and the grave-diggers. No use of going abroad any more in order to "leave" or "assimilate" weak and helpless human beings. It pays as well, and is much cheaper, to butcher and pack them in their cradles right in our own cities.

Miami celebrated the tenth anniversary of her existence in grand style. The growth of the city has been phenomenal, but not more so than it will be during the next ten years. Hon. Frank Clark of Gainesville was there and delivered an eloquent address.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is that deprives the rose of mental suffering, for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

MAKING MAPLE SUGAR.

The Modern Way and the Crude Methods of Early Days.

The sugar season opens a busy industry in Maine, New Hampshire and Vermont. Buckets are loaded on to the ox sleds, boxes of spiles and axes, and away to the sugar orchard!

Sugar making nowadays is a science. Only in the extreme rural sections still remain the wooden buckets and cedar spiles, but there is still a sugar warmth, a bursting of healthy joy that breaks forth just as the swelling buds on the maples.

No longer are there the crude methods of an open fire, of the kettles strung on green forked poles. Possibly sugar making has lost some of its genuine savor in the modern evaporators, but the product—and its commercial feature is of all importance—is finer grained, of purer color, freer from bits of bark and other foreign refuse.

Important changes in the sugar industry have lessened the work of the farmer. In the early days wooden buckets and handmade cedar spiles were used. That made both in the orchard, for the bucket had to be placed on the ground, and the spile could not be far above it else the wind would blow the sap to one side and thus waste it.

As the snow melted the spiles had to be drawn, new holes nearer the ground made and the bucket replaced.

Nowadays the spiles are of metal and the pails are hung on them. The evaporator is a sample of the rapid strides in sugar-making facilities. The modern orchard has tin or galvanized pails and metal spiles.

Occasionally a tree runs a bucket full every fair day during the season, an average of ten quarts, although the general run is about half that amount, unless the weather holds so the trees run during the night.

Good, honest sirup weighs eleven pounds to the gallon, and it takes a barrel of thirty-two gallons of sap to make a gallon of sirup.

THE FIRST BALLOON.

Result of the Experiments of the Montgolfier Brothers.

Proceeding on the principle that heated air expands and so becomes lighter, bulk for bulk, than air at the ordinary temperature, the brothers Stephen and Joseph Montgolfier filled a paper bag with heated air, which rose to the ceiling of the room. This preliminary success was rapidly followed up, and they gradually increased the size of the balloons experimented with until they were so satisfied with their progress that in 1783 they gave a public exhibition, sending up a linen balloon 105 feet in circumference, which was inflated over a fire supplied with small bundles of chopped straw. The balloon succeeded beyond their utmost expectation, and after rising to a height of over 6,000 feet it descended ten minutes after in a field a mile and a half away. The next balloon carried a car, in which were a sheep, a cock and a duck.

The success of this further experiment induced M. Pilatre de Rozier and the Marquis d'Arlandes to risk their lives by making the first ascent in the new and wonderful machine. Their balloon, which was forty-five feet in diameter and seventy-five feet high and was inflated with hot air, passed over Paris to the great astonishment of the people, attaining an altitude of half a mile. Ballast was then for the first time employed in regulating the ascending power of the balloon. The first venture was followed by others, and De Rozier, the first to ascend, was also the first to meet his death in this manner, having been killed, with a companion, by the burning of his balloon near Boulogne.

BACKBONE.

The Self Reliant Man is the One Who is in Demand.

Haven't you depended upon clothes, upon appearances, upon introductions, upon recommendations about long enough? Haven't you leaned about long enough on other things? Isn't it about time for you to call a halt, to tear off all masks, to discard everything you have been leaning on outside of yourself, and depend upon your own worth?

Haven't you been in doubt about yourself long enough? Haven't you had enough unfortunate experiences depending upon superficial, artificial, outside things to drive you home to the real power in yourself? Aren't you tired of leaning and borrowing and depending upon this thing and that thing which have failed you?

The man who learns to seek power within himself, who learns to rely upon himself, is never disappointed, but he always will be disappointed when he depends upon any outside help. There is one person in the world that will never fail you if you depend upon him and are honest with him, and that is yourself. It is the self-reliant man that is in demand everywhere.—C. R. Madden in Success Magazine.

THIEF COMBATS CITIZEN.

After Desperate Struggle Macon Railroad Man Captures Thief.

Macon, Ga., July 26.—In a desperate struggle with a negro burglar at the home of W. T. Bigby, on Pine street, shortly after midnight, E. W. Braswell, a railway employe, and an ex-member of the Ashburn football team, succeeded in capturing a negro, after a close call.

The negro drew a revolver when he was cornered and by the slightest chance Mr. Braswell grabbed it in the nick of time. A shot from his own revolver pierced the flesh of the negro's hip and when the scuffle began the male members of the household ran into the street just in time to render valuable assistance.

Braswell told how he had sat in waiting for the negro nearly all the fore part of the night and when everything was still he saw the negro enter the house of a neighbor. He remained still until he saw him advancing to his own home and then armed himself. After the negro had struck a match on the veranda and had cut and opened the blinds, Braswell made a dash for him. The negro leaped out into the three street closely followed by Braswell.

Braswell was so close that the negro realized that he must turn and fight. He did so by drawing a revolver. Braswell ducked and opened fire himself. At the same moment he seized the weapon of the negro and avoided being shot.

Braswell is himself far superior to the negro physically and he had him overpowered when the scuffle and the shots alarmed the sleeping neighbors. While they were fighting assistance came, and the burglar was done for.

When carried to police station a revolver and two knives were taken from his person, which have been identified by other citizens. It has developed that the negro had been in two other Macon homes during the night and was a notorious burglar. He gave his name to the police as Perry James. As soon as he is able to face the court he will be up for an investigation.

Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes, and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." J. W. McCollum & Co.

Terrell Can Name Senator.

Atlanta, July 26.—The interesting question of whether Georgia will have a United States senator from March 3, 1907, when the term of Senator Bacon expires, until the legislature convenes in the following June, has been decided by State Attorney General Hart, who holds that under the United States constitution the governor has a right to appoint or reappoint a senator in case of vacancy. A number have held that there is no law for the reappointment of a successor and that Georgia would have only one senator after the term of the senior representative from Georgia expired. There has been considerable inquiry over the point, and the decision of Judge Hart will attract considerable attention.

A Tragic Finish.

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth McIver of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold, but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at all drug stores. 50c and \$1. Trial bottle free.

No News Received from Alexander. Augusta, Ga., July 26.—So far the advertised reward by the Georgia Railroad bank of a thousand dollars for the capture of Thomas W. Alexander, has developed in nothing. It has been learned that he left the Waldorf-Astoria hotel, in New York city on the night of Sunday, July 8, and seems immediately thereafter to have dropped from the face of the earth. There is a rapidly growing opinion that he has gone to British Honduras. It has also been ascertained that he gathered up something in the neighborhood of \$10,000 on the Saturday he left here, and shortly before train time purchased a number of small items and had them charged.

The Smile

That won't come off appears on baby's face after one bottle of White's Cream Vermifuge, the great worm medicine. Why not keep that smile on baby's face. If you keep this medicine on hand, you will never see anything else but smiles on his face. Mrs. S. —, Blackwell, Okla., writes: "My baby was peevish and fretful. Would not eat and I feared he would die. I used a bottle of White's Cream Vermifuge and he has not had a sick day since." Sold by W. M. Johnson.

Remarried Wife No. 1.

Savannah, Ga., July 26.—Judge H. D. P. Twigg and Mrs. Lucie E. T. Twigg were quietly remarried here Tuesday afternoon at 5 o'clock by Rev. John D. Jordan, the ceremony closing a separation of many years, during which the groom married another woman, who later secured a divorce from him. Only the relatives of the contracting parties and one or two of their most intimate friends were present at the ceremony. Miss Isabelle Twigg, their daughter, was present. The couple will reside in Savannah.

Only 82 Years Old.

"I am only 82 years old and don't expect even when I get to be real old to feel that way as long as I can get Electric Bitters," says Mrs. E. H. Bronson of Dublin, Ga. Surely there's nothing else keeps the old as young and makes the weak as strong as this grand tonic medicine. Dyspepsia, torpid liver, inflamed kidneys or chronic constipation are unknown after taking Electric Bitters a reasonable time. Guaranteed by all druggists. Price 50c.

SELECT PEACHES ARE ROTTING.

25 Carloads Lying at Station at Adairsville For Shipment.

Adairsville, Ga., July 26.—The climax of the troubles of the peach growers here was reached Tuesday.

Gathering was stopped early to prevent further glut and loss. It is conservative to say that there is now stacked on the ground and about the yards of the depot 25 cars of select Elbertas.

There have been only about six refrigerator cars received here in the past 24 hours, notwithstanding the fact that a large number have been ordered for days. The refrigerator people claim that they have a supply coming for the Western and Atlantic railroad. The damage to the growers cannot be estimated, the fruit being exposed day and night to the rain and sunshine.

The growers suffered about the same in 1904, when the damages were very great. At a mass meeting of citizens they decided not to ask anything but to put the road and car people on notice that should it occur again they would demand pay for their losses. Several demands were made for bills of lading and cash rendered the railroad for freight.

The city authorities will take steps to have the rotting fruit removed.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buehling, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

"Uncle" Joe Visits Coney Island. New York, July 26.—"Uncle" Joe Cannon, of Illinois, speaker of the house of representatives, went to Coney Island Tuesday night, says a morning paper, and insisted on being "one of the people," standing in line and taking his turn with the rest of the crowds there. He declared that the big amusement place would have no more enthusiastic "booster" than himself hereafter.

Twenty-Year Battle.

"I was a loser in a twenty-year battle with chronic piles and malignant sores, until I tried Bucklen's Arnica Salve, which turned the tide by curing both, till not a trace remains," writes A. M. Bruce of Farmville, Va. Best for old ulcers, cuts, burns and wounds. 25c at all druggists.

THE BREAKERS

THE BREAKERS is second to none in location and beach attractions. It is the ideal hotel for summer tourists. Situated upon a high bluff overlooking the ocean, and less than two hundred feet from the rolling surf, it combines the benefits of an ocean voyage with the pleasures of a shore resort. The rooms are large all outside, en suite and single with baths, and thoroughly screened. The dining-room is on the ocean side and one of the most attractive rooms of the hotel. Electric lighting, telephone service and immediate connection with an up-to-date livery.

Bus will meet all trains.

In addition to The Breakers it has been possible to add the use of the Clarendon bath house, bowling alley, pool tables, dancing pavilion and the famous Clarendon fishing pier. The table will maintain the high standard to which Mr. Holt pledges himself, wherever he assumes the management.

The remarkable record for healthfulness, especially for children, is a well established feature.

The proof of all is to join with the many who are booking for the season. For rates and reservations apply to BERT J. HOLT, Seabreeze, Fla.

BURIALS IN CUBA.

Customs That Remind One of the Parsees of Bombay.

Burial customs in Cuba are almost as strange as the Parsee customs and their towers of silence in Bombay. It seems that the reopening of graves in Cuba is the result of a long established custom of burying as many bodies as possible in a single grave. The cemetery routine is like this:

First some one, usually the head of a family, buys a plot. He at once sets to work digging his own grave and graves for all the members of his family. He digs several graves six feet long for adults and one grave four feet long to provide for the possible death of a child. When the entire area of the plot is thus in open graves the digger turns mason and plasterer. He cements each grave, bottom and sides. Then he fills in the cemented graves with soil and goes home with the satisfactory thought that he may look upon his own grave during his lifetime and that it is ready for him at any time he is ready for it.

But the weirdest part of this custom is yet to be told. In the middle of the plot a square grave is dug, a hole about six feet each way. This square hole is cemented like the graves and filled in with soil. It should be explained here that the bodies in the graves are covered with quicklime. When the flesh has disappeared and only the bones are left the bones are taken out of the grave and thrown into the square hole in the center of the plot. Thus the graves are used over and over again until the square hole in the center is filled with the bones of the members of this or that family. Then the hole is sealed over, and that particular family plot is abandoned and a new one purchased.—London Tit-Bits.

BE A BUSINESS MAN.

Do Not Ignore the Money Side of Your Vocation.

No matter what your vocation may be, you must be a business man first or you will always be placed at a great disadvantage in the practical affairs of life. We cannot entirely ignore the money side of existence any more than we can the food side, and the very foundation of a practical, successful life is the ability to know how to manage the money side effectively.

It is infinitely harder to save money and to invest it wisely than to make it, and if even the most practical men, men who have had a long training in scientific business methods, find it a difficult thing to hold on to money after they make it, what is likely to happen to people who have had practically no training in business methods?

If every child in America had a thorough business training tens of thousands of promoters, long headed, cunning schemers, who have thrived on the people's ignorance, would be out of an occupation.

I believe that the business colleges are among the greatest blessings in American civilization today, because they have saved thousands of homes from being wrecked and have made happy and comfortable tens of thousands of people who might otherwise be living in poverty and wretchedness.—Success Magazine.

Trapped.

The Man (who had been sitting stolidly with his eyes on his paper)—Take my seat, madam.

The Lady—Then you are about to leave the car?

The Man—Oh, no, madam. But he was, just the same, and it took him fifteen minutes to walk back from where he finally alighted.—Cleveland Plain Dealer.

It Sometimes Seems So.

Tommy—Paw, what does the paper mean by practical Christianity? Paw—Practical Christianity is the kind that does not interfere with a man's business.

A Husband's Retort.

A man, accompanied by his wife, visited a merchant tailor to order a suit of clothes. The couple differed as to the material and the manner of making, and the wife lost her temper.

"Oh, well," she said, turning away. "Please yourself. I suppose you are the one who will wear the clothes." "Well," observed the husband meekly. "I didn't suppose you'd want to wear the coat and waistcoat."—Everybody's Magazine.

Mistaken Idea.

"It may be laid down as a broad proposition," said the professor of political economy, "that you cannot get something for nothing." "I once got the measles for nothing," professor, interrupted the young man with the wicked eye.—Chicago Tribune.

An Editor's Reply.

"Why didn't you retaliate when that fellow struck you?" "I didn't know him, and it is our rule not to pay any attention to anonymous contributions."—Reveries.

THIEF COMBATS CITIZEN.

After Desperate Struggle Macon Railroad Man Captures Thief.

Macon, Ga., July 26.—In a desperate struggle with a negro burglar at the home of W. T. Bigby, on the street, shortly after midnight, E. W. Braswell, a railway employe, and an ex-member of the Ashburn football team, succeeded in capturing a negro, after a close call.

The negro drew a revolver when he was cornered and by the slightest chance Mr. Braswell grabbed it in the nick of time. A shot from his own revolver pierced the flesh of the negro's hip and when the scuffle began the male members of the household ran into the street just in time to render valuable assistance.

Braswell told how he had sat in waiting for the negro nearly all the fore part of the night and when everything was still he saw the negro enter the house of a neighbor. He remained still until he saw him advancing to his own home and then armed himself. After the negro had struck a match on the veranda and had cut and opened the blinds, Braswell made a dash for him. The negro leaped out into the three street closely followed by Braswell.

Braswell was so close that the negro realized that he must turn and fight. He did so by drawing a revolver. Braswell ducked and opened fire himself. At the same moment he seized the weapon of the negro and avoided being shot.

Braswell is himself far superior to the negro physically and he had him overpowered when the scuffle and the shots alarmed the sleeping neighbors. While they were fighting assistance came, and the burglar was done for.

When carried to police station a revolver and two knives were taken from his person, which have been identified by other citizens. It has developed that the negro had been in two other Macon homes during the night and was a notorious burglar. He gave his name to the police as Perry James. As soon as he is able to face the court he will be up for an investigation.

Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes, and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Danvers, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." J. W. McCollum & Co.

Terrell Can Name Senator.

Atlanta, July 26.—The interesting question of whether Georgia will have a United States senator from March 3, 1937, when the term of Senator Bacon expires, until the legislature convenes in the following June, has been decided by State Attorney General Hart, who holds that under the United States constitution the governor has a right to appoint or reappoint a senator in case of vacancy. A number have held that there is no law for the reappointment of a senator and that Georgia would have only one senator after the term of the senior representative from Georgia expired. There has been considerable inquiry over the point, and the decision of Judge Hart will attract considerable attention.

A Tragic Finish.

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth Miller of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold, but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at all drug stores. 50c and \$1. Trial bottle free.

No News Received from Alexander.
Augusta, Ga., July 26.—So far the advertised reward, by the Georgia Railroad bank of a thousand dollars for the capture of Thomas W. Alexander, has developed in nothing. It has been learned that he left the Waldorf Astoria hotel in New York city on the night of Sunday, July 8, and seems immediately thereafter to have dropped from the face of the earth. There is a widely growing opinion that he has gone to British Honduras. It has also been ascertained that he gathered up something in the neighborhood of \$10,000 on the Saturday he left here and shortly before train time purchased a number of small items and had them charged.

The Smile

That won't come off appears on baby's face after one bottle of White's Cream Vermifuge, the great worm medicine. Why not keep that smile on baby's face. If you keep this medicine on hand, you will never see anything else but smiles on his face. Mrs. S. Blackwell, 1214 N. 1st St., writes: "My baby was peevish and fretful. Would not eat and I feared he would die. I used a bottle of White's Cream Vermifuge and he has not had a sick day since." Sold by W. M. Johnson.

Remarried Wife No. 1.

Savannah, Ga., July 26.—Judge H. D. D. Twigg and Mrs. Marie E. T. Twigg were again remarried here Tuesday afternoon at 5 o'clock by Rev. John D. Jordan, the ceremony closing a separation of more than a year, during which the ground married another woman, who later secured a divorce from him. Only the relatives of the contracting parties and one or two of their most intimate friends were present at the ceremony. Miss Isabelle Twigg, their daughter, was present. The couple will reside in Savannah.

Only 82 Years Old.

"I am only 82 years old and don't expect even when I get to be real old to feel that way as long as I can get Electric Bitters," says Mrs. E. H. Brunson of Dublin, Ga. Surely there's nothing else keeps the old as young and makes the weak as strong as this grand tonic medicine. Dyspepsia, torpid liver, inflamed kidneys or chronic constipation are unknown after taking Electric Bitters a reasonable time. Guaranteed by all druggists. Price 50c.

SELECT PEACHES ARE ROTTING.

25 Carloads Lying at Station at Adairsville For Shipment.

Adairsville, Ga., July 26.—The climax of the troubles of the peach growers here was reached Tuesday.

Gathering was stopped early to prevent further glut and loss. It is conservative to say that there is now stacked on the ground and about the yards of the depot 25 cars of select Elbertas.

There have been only about six refrigerator cars received here in the past 24 hours, notwithstanding the fact that a large number have been ordered for days. The refrigerator people claim that they have a supply coming for the Western and Atlantic railroad. The damage to the growers cannot be estimated, the fruit being exposed day and night to the rain and sunshine.

The growers suffered about the same in 1934, when the damages were very great. At a mass meeting of citizens they decided not to ask anything but to put the road and car people on notice that should it occur again they would demand pay for their losses. Several demands were made for bills of lading and cars rendered the railroad for freight.

The city authorities will take steps to have the rotting fruit removed.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Baesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

Monter Joe Visits Coney Island.
New York, July 26.—"Uncle" Joe Cannon, of Illinois, speaker of the house of representatives, went to Coney Island Tuesday night, says a morning paper, and insisted on being "one of the people," standing in line and taking his turn with the rest of the crowds there. He declared that the big amusement place would have no more enthusiastic "booster" than himself hereafter.

Twenty-Year Battle.

"I was a loser in a twenty-year battle with chronic piles and malignant sores, until I tried Rocklen's Anus Salve, which turned the tide by curing them, till not a trace remains," writes A. M. Bruce of Farmville, Va. Best for old ulcers, cuts, burns and wounds. 25c at all druggists.

THE BREAKERS

THE BREAKERS is second to none in location and beach attractions. It is the ideal hotel for summer tourists. Situated upon a high bluff overlooking the ocean, and less than two hundred feet from the rolling surf, it combines the benefits of an ocean voyage with the pleasures of a shore resort. The rooms are large all outside, en suite and single with baths, and thoroughly screened. The dining-room is on the ocean side and one of the most attractive rooms of the hotel. Electric lighting, telephone service and immediate connection with an up-to-date livery.

Bus will meet all trains. In addition to The Breakers it has been possible to add the use of the Clarendon bath houses, bowling alley, pool tables, dancing pavilion and the famous Clarendon fishing pier. The table will maintain the high standard to which Mr. Holt pledges himself, wherever he assumes the management.

The remarkable record for healthfulness, especially for children, is a well established feature.

The proof of all is to join with the many who are booking for the season. For rates and reservations apply to BERT J. HOLT, Seabreeze, Fla.

MOBS AND DOGS CHASE OHIOAN.

Man Had Attempted Criminal Assault on Little Child.

Zanesville, O., July 26.—A man hunt through the woods of Perry county that began Monday night ended in a victory for the pursuers in the forest near Gloucester Tuesday.

While the 8-year-old daughter of Charles Hammers, of Misco, was picking blackberries late Monday afternoon, she was seized by a man named Lew Eblin. Her screams brought her elder brother to her rescue and Eblin fled.

When the two children returned home the neighborhood was aroused and a posse was formed. Deputy Sheriff King, with his bloodhounds, hastened to the scene.

After a chase lasting through the night, and part of Tuesday, the posse came upon Eblin, who surrendered. He had fired all the loads of his revolver at one of the bloodhounds which attacked him and severely wounded it. He was taken to New Lexington to avoid possible lynching.

White Man Slays Negro.

Ellaville, Ga., July 26.—Arthur Guy, a young white man, killed a negro named Wiley Jones about 9 o'clock Tuesday night 7 miles from town. Guy claims self-defense as the negro was advancing on him with an ax. His mother corroborates this statement. The trouble arose over some work that the negro was instructed to perform and hot words passed. Coroner Teel has summoned a jury and will hold an inquest.

Murderer-Son To Be Hanged.

Auburn, Calif., July 26.—Adolph Weber, who murdered his father, mother, brother and sister at this place two years ago, in order to obtain possession of the family estate of about \$60,000, was brought into court Tuesday and sentenced to be hanged on Sept. 12. Once before the youth was sentenced to death but his appeal to the supreme court served as a stay of execution.

AWFUL PSORIASIS
35 YEARS

Terrible Scaly Humor in Patches All Over the Body—Skin Cracked and Bleeding—Itching Unbearable—Cured by Cuticura in Thirty Days at Cost of \$4.75.

ANOTHER WONDERFUL
CURE BY CUTICURA

"I was afflicted with psoriasis for thirty-five years. It was in patches all over my body. I used three cakes of Soap, six boxes of Cuticura Ointment, and two bottles of Cuticura Resolvent. I bathed with the Soap, applied the Ointment once a day, and took the Resolvent as directed. In thirty days I was completely cured, and I think permanently, as it was about five years ago."

"The psoriasis first made its appearance in red spots, generally forming a circle, leaving in the center a spot about the size of a silver dollar of sound flesh. In a short time the affected circle would form a heavy dry scale of a white silvery appearance and would gradually drop off. To remove the entire scales by bathing or using oil to soften them the flesh would be perfectly raw, and a light discharge of bloody substance would ooze out. That scaly crust would form again in twenty-four hours. It was worse on my arms and limbs, although it was in spots all over my body, also on my scalp. If I let the scales remain too long without removing by bath or otherwise, the skin would crack and bleed. I suffered intense itching, worse at nights after getting warm in bed, or blood warm by exercise, when it would be almost unbearable."

"To sum it all up, I would not go through such another ordeal of affliction for thirty-five years for the State of Kansas. (signed) W. M. Chidester, Hutchinson, Kan., April 20, 1905."

Cuticura Soap, Ointment, and Pills, are sold throughout the world. Peter Drug & Chem. Corp., Sole Props., Boston, 600 Mailed Free, "How to Cure Torturing Humors."

Eufaula Newspaper Gets New Home.

Eufaula, Ala., July 25.—The Eufaula Times will soon move into new quarters and will do an entirely new suit of clothes. Almost an entire new outfit will take the place of the one and it will be in keeping with the progress that has recently characterized the city in all other lines. A. L. Muir, the proprietor, came here from Ohio several years ago, succeeding Governor Jelks when his aspirations drifted into politics, and by his most affable and courteous bearing has won the admiration of the entire citizenry and has identified his interest with them.

Your Liver

Is out of order. You go to bed in a bad humor and get up with a bad taste in your mouth. You want something to stimulate your liver. Just try Herbine, the liver regulator. A positive cure for constipation, dyspepsia and all liver complaints. Mrs. F. —, Ft. Worth, Texas, writes: "Have used Herbine in my family for years. Words can't express what I think about it. Everybody in my household are happy and well, and we owe it to Herbine." Sold by W. M. Johnson.

Unable to Move Peaches.

Cathoun, Ga., July 25.—The growers are unable to get cars to move the peaches at this point. There are 1100 crates of peaches on the platform and on the ground, near the depot, and no cars in sight. A number of growers have demanded bills of lading from the railroad agent, which have been refused. The growers stand to lose thousands of dollars by the inability of the Armour people to furnish cars.

Storm Strikes Birmingham.

Birmingham, Ala., July 25.—Considerable damage was done to trees and substantial buildings Monday by a severe windstorm which passed over the city shortly after 5 o'clock. There was great confusion and alarm among the large crowd at the baseball park. Dr. F. M. Roof, former president of Howard college, had both arms and legs broken by the collapse of an unfinished residence in which he had sought shelter.

'FRISCO POLICIES TURNED DOWN

Phoenix Royal Company Repudiates Claims for Millions.

San Francisco, July 26.—The Phoenix Royal Insurance company, of Vienna, which carried about \$2,500,000 insurance in this city, has decided not to pay any loss growing out of the conflagration of last April. The company's policies carried an earthquake clause. The following official notice was issued by the delegation sent from the home office and the adjunct:

"To the claimants of the Austrian Phoenix Royal Imperial Privileged Insurance company, of Vienna, Austria, viz., that all claims which have been filed against this company by reason of the earthquake which occurred on the morning of April 18, 1906, are invalid, as all policies of this city became null and void by said earthquake, as the same was wholly responsible for the conflagration that followed."

Was a man who, against all odds, attained the highest honor a man could get in the United States. Ballard's Horehound Syrup has attained a place never equalled by any other like remedy. It is a sure cure for coughs, colds, bronchitis, influenza and all pulmonary diseases. Every mother should keep supplied with this wonderful cough medicine. Sold by W. M. Johnson.

Train Strikes Herd of Cattle.

Shreveport, July 25.—The engine of local freight train No. 35 on the Kansas City Southern was overturned in a collision with a herd of cattle just outside the local yards here Monday morning. Engineer Frank Andrews, of Shreveport, was killed, and George Nolton, fireman, of Shreveport, was injured. Andrews was pinioned under the engine and badly crushed. He was in point of service one of the oldest engineers on this division of the Kansas City Southern.

Makes the Liver Lively.

Orino Laxative Fruit Syrup gives permanent relief in cases of habitual constipation, as it stimulates the liver and restores the natural action of the bowels, without irritating these organs like pills or ordinary cathartics. Does not nauseate or gripe and is mild and pleasant to take. Remember the name Orino and refuse substitutes. J. W. McCollum & Co.

Town Gives Site for Grave.

Oberammergau, Upper Bavaria, July 25.—The Burgomaster and citizens of Oberammergau have presented a plot of ground on the mountainside near the cross of King Ludwig III for the grave of the Rev. John H. McCracken, rector for many years of the American church at Munich, where he died on Saturday last. The suggestion that the town give a site for the grave came from Consul General Wright, of Munich.

CLUB LIFE ECONOMIES

POOR MEN IN THE SWELL ORGANIZATIONS OF NEW YORK.

A Democracy Where All, Regardless of Income, Are Equal—Membership in a First Rate Club Regarded as a Profitable Investment.

A good many country visitors are disappointed when they learn the sober truth that New York has no clubs composed exclusively of millionaires. It is harder still to make country folk believe that hundreds of men join the so called swell clubs in large part from motives of economy.

There are scarcely three clubs in the city that do not include a considerable number of poor men in their membership. The average income of the whole membership of the ten best known clubs in the city is probably nearer \$10,000 a year than \$50,000 a year, and almost every one of these clubs includes some scores of men with incomes well below \$10,000 and a good many with incomes well below \$5,000.

There is a real democracy of New York club life. Youths in their early twenties and just beginning their careers on very moderate salaries frequent truly palatial clubhouses, breakfast in rooms such as few princes ever use and lounge before fireplaces that are to be matched only in the most splendid buildings of Europe.

The poor man's credit at the club is as good as the rich man's, and both are impartially posted when they neglect to pay their bills in good season. There are a good many instances also in which the monthly bills of the poor man are higher than those of his rich fellow member, for the frequenters of clubs are apt to be the poorer rather than the richer members.

Many a man of small means regards his membership in a first rate club in the light of a profitable investment. Such a man, if a confirmed bachelor, has probably lived for twenty years within half a block of the club, paying a few hundreds a year for a small bedroom and finding all his luxuries in the apartments of the clubhouse.

Without being in the least mean he makes of the club a money saving institution for himself. Its comfortable lounging rooms save him annually from \$300 to \$1,000 a year in rent, according to the location in which he has his modest lodgings. After that he saves a fair percentage on everything he eats and drinks at the club.

His simple breakfast costs him perhaps 10 per cent less than it would cost at any restaurant he would be likely to frequent, and the same is true of his dinners. If he takes three-fourths of his meals at the club he saves annually about \$100 in tips.

If he drinks wine at dinner he saves from 10 to 25 per cent upon every bottle. If he permits himself the luxury of a cab he saves a handsome percentage by ordering it through the club and avoids all possibility of a row with the cabby over the amount of the fare. Many a man writes all his letters of a social character and some of a business character at the club, and thus saves from \$15 to \$40 a year in stationery.

He need buy no books, nor need he subscribe to a library, for there is the club library free for his use. He never need buy a periodical or even a newspaper save when he travels, for all that he reads are freely supplied by the club. And the enjoyment of all these things imposes upon him no considerable expenditure for extravagant luxuries. He is sure, especially in the average clubs, to find plenty of men with like modest incomes and simple tastes as himself, and he may sit for hours with cronies over the cafe table without spending money that he can ill afford and without giving offense to the servants of the house committee.

Most club members probably do not keep a debit and credit account with the club, but the man of modest means and moderate habits would find the extension of such an account a matter of great satisfaction. Such a man, paying \$250 as an entrance fee and \$15 a month in dues, is likely to find himself at the end of twenty years a long way ahead of the game. The club in twenty years has cost him rather less than \$3,000 for entrance fees, dues and other things, but he has saved \$10,000 to \$15,000. —New York Sun.

Capiteine.
The active principle of capiteine, or capiteine, is a volatile oil known as capiteine. It is so exceedingly acid that a quarter of a grain exposed to the air in a room will diffuse itself throughout the apartment and cause present to cough and sneeze as though the pepper had been taken into the mouth or nostrils.

The Height of Fame.
Superlative fame is where a man has not only forced his name into everybody's mouth, but has kept it there until the first class newspapers are shouting it the same way every time they mention it.—Puck.

Don't refuse to tell or show the appropriate what to do, for you once had to learn all that you know.

A Grecian Monastery.
A traveler in Greece tells how he took shelter during a snowstorm in the mountains within an isolated monastery called Our Lady of the Dingle. "We looked and felt like scarecrows. The monks piled high the wood fire in the guest chamber and served us with coffee and the liquor called masticha. Nicolai, our boy guide, would not partake. He stood in the doorway, far from the fire, shivering. Once he laughed outright. I was seated upon a couch supported by what I imagined to be a heap of skins. Suddenly they moved, and a corpulent, black bearded monk slowly rose from beneath me, rubbed his sleep dazed eyes and started around. Then he placed his hands dolefully upon his stomach, sighed and asked a question, of which the interpretation was: 'I am ill. Is there a doctor here?' I offered him a cigarette, and when I added a quinine tablet he sighed again and said, 'You place a burden of gratitude upon my shoulders which all the years of my life will be too short to remove.'"

What Was Taking Him.
A Catholic priest of an eastern city is fond of telling a story at his own expense. "I was coming out of church one day," he says, "and directly in front of me were two old women who did not know that I was within earshot. 'And did you know, Mrs. Mulligan, that Father Blank was going to Europe?' said one to the other. 'Indeed, I did not, Mrs. McSwipes. An' what's takin' him there?' was the immediate query. 'My 10 cents and your 10 cents, Mrs. Mulligan, and that's what's takin' him,' replied the informative dame, with a significant toss of her gray head."

Dyersburg, Tenn., June 1, 1901.
Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: One bottle of your Texas Wonder, Hall's Great Discovery, has cured me of kidney trouble and lame back, and I can cheerfully recommend it.
Yours truly,
JACK MOORE, Merchant.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by J. W. McCollum & Co.
